Proceedings of the Chief Commissioner of Mysore in the General Department, (Judicial),—dated 19th June 1880.

From the Deputy Commissioner, Mysore District, To the Secretary to the Chief Commissioner of Mysore, Police Department, No. 111, dated 1st May 1880.

I have the honor to submit that previous to the receipt of Chief Commissioner's Proceedings No. 1664-69—Ml. 91 of 31st July last, the re-arrangement of the Police of Seringapatam and Ganjam had engaged my attention. I am satisfied that economy and efficiency will result from doing away with the Municipal Police as a separate body and only debiting the Municipal Funds with a fixed sum annually to be credited to the District Police Budget, *viz.*, 2,556 Rs.

2. The present force in the Towns is as follows :—

District Police.	*Municipal Police.*	*Barr.*
1 Inspector	..	1 Havildar.
1 Jamadar	1	1 Naigue.
2 Daffedars	4	6 Privates.
9 Peons	32	

3. The present Taluk Lock-up and District Police Station are at the back of the Taluk Cutcherry shut out from the possibility of observation or usefulness and may be handed over to the Amildar, who is short of accommodation.

4. The Seringapatam Municipal Police Station and Lock-up is a good double storied building in a central position in the town. The District Police Inspector holds his office in its upper story. I propose to make this, with some slight alterations, the head station both for taluk and town.

5. Ganjam station requires no alterations in itself or in its position and will remain as a sub-station.

6. The Barr guard suffices for the protection of the Treasury, but for further protection at night and for night patrols in that part of the fort and town, a party of one Daffedar and three peons from head station will be detailed from sunset to sunrise.

7. Both District and Municipal peons at present guard Pakshivahini and Kirangur, places situated considerably outside Municipal limits ; hereafter it will be solely District Police duty.

8. For town duties four Daffedars and twenty peons should suffice, while the District Force at head station would be one Inspector, one Jamadar, two Daffedars, twelve peons, or in all excluding Inspector, one Jamadar, six Daffedars, thirty peons against two Jamadars, six Daffedars, forty-one peons or a saving of one Jamadar, eleven peons, for which the Municipality may get credit.

9. By the above arrangement the amalgamation of the forces is complete ; one station, one lock-up, separate registers and divided control is done away with, while with a reduction of strength and cost efficiency will be gained. The Amildar (President of the Municipality) and Taluk Inspector think the change will work better than the present arrangement and are desirous it should be given effect to.

10. I submit Statements A and B shewing present and proposed stations, establishments and cost thereof exhibiting a net saving of 92 Rs. per mensem or 1,104 per annum. The clothing, arming and cost of registers, &c., of the separate Municipal force has averaged Rs. 312 per annum, say in future, Rs. 300 per annum. The Municipal Funds should therefore, I propose, pay to the Police Budget Rs. 2,556 per annum for police services which have hitherto cost the Municipality Rs. 3,672 per annum.

From the Secretary to the Chief Commissioner of Mysore, Police Department, To the Deputy Commissioner of Mysore, No. 169—16, dated 24th May 1880.

His No. 111 of the 1st May 1880, suggesting the abolition of the Seringapatam and Ganjam Municipal Police and recommending the duties being performed by Regular Police, the Municipality paying a certain sum for the same annually.

In reply, observes that the proposals include among other things the employment of 12 peons of the District Police instead of 9 within Municipal limits and consequently a greater expense on that account.

2. If the Deputy Commissioner simply means to withdraw a like number from elsewhere out side, this is unobjectionable; the Chief Commissioner however cannot sanction an increase of the total sanctioned number of District Police.

3. The arrangement is much better than the present and will give the Municipality greater efficiency at less cost.

From the Deputy Commissioner of the Mysore District, To the Secretary to the Chief Commissioner of Mysore, Police Department, No. 141, dated 31st May 1880.

His No. 169—16, dated 24th instant.

In reply, has the honor to state that under the proposed arrangement, though the numbers were told off according to the presumable amount of Municipal and District work to be performed

as there will be hereafter virtually only one force which will take all duties in common, none will have to be withdrawn from elsewhere owing to the total number to be located at head-quarters being less than the present complement.

2. As the arrangement is permitted to stand good, if the proposed annual payment by the Municipality be increased to Rs. 2,776, that is, by Rs. 220 about equal to the pay of three constables, the apparent increase to the District Police Force will not appear.

No. 1927—J. 33, DATED BANGALORE, 19TH JUNE 1880.

ORDER.—In the first of the letters above cited, the Deputy Commissioner of Mysore proposed to abolish the Police Force maintained by the Seringapatam Municipality in the towns of Seringapatam and Ganjam, and recommended that the work hitherto performed by the Municipal Police be done in future by the District Police, and that in consideration thereof, the Police Budget of the Mysore District be credited annually with the sum of Rs 2,556 from the Municipality. The proposals included, amongst other things, the employment of 12 peons of the District Police in the place of 9 (the original number) within Municipal limits, and on an enquiry being made by this Office as to the cause of this increase to the numbers of the District Police, the Deputy Commissioner stated that if the proposed contribution from the Municipality were raised to Rs. 2,776 or by Rs. 220, the apparent increase to the District Police would not appear.

2. It is not clear why the Deputy Commissioner proposes to increase the contribution by Rs. 220 which is, as he says, about the pay of 3 peons. Nor is it apparent how the contribution of Rs. 2,556 originally proposed was arrived at.

3. As far as can be understood the Deputy Commissioner has included in his estimate of the force required for the town three peons in the list of District Police, but has included a sum nearly equal to their pay in the contribution to be levied from the Municipality. It will be more convenient to shew the requisite number of Police as is done in the following paragraph.

4. The Deputy Commissioner is therefore authorized to abolish the Seringapatam Municipal Police, and to entertain in the Mysore District Police the following numbers, by which the Police Force of the District is now permanently increased, *viz*:—

		Rs.
2	Daffedars 1 at Rs 12 and 1 at Rs. 10 per mensem	264 per annum.
2	Lance Daffedars at 9 Rs. each	216
12	Peons at Rs. 7 each	1,008
11	Do at Rs. 6 each	792
	Total	2,280

5. The present members of the Municipal Police will be drafted into the Regular Police of the District, and no expenditure can be allowed by way of compensation, pensions or gratuities for loss of appointments.

6. Instead of paying for the up-keep of its Police Force the Seringapatam Municipality will contribute annually to Provincial Funds a sum of Rs. * 2,616 in return for the force to be maintained by Government in the Municipality. This sum is liable to revision hereafter if circumstances should require that a larger force than is assigned at present must be maintained in the town, or that the members of it should be more highly paid; but until the issue of a further general order on the subject, the above annual contribution is fixed.

* Pay of force	2,280
Clothing and equipment	300
Contingencies	36
	Rs. 2,616

Proceedings of the Chief Commissioner of Mysore in the General Department, (Judicial),—dated 24th June 1880.

Annual Report on the administration of Criminal Justice in Mysore for the year 1879.

No. 2102—J. 39, DATED BANGALORE, 24TH JUNE 1880.

REVIEW BY THE CHIEF COMMISSIONER.—The Report on Criminal Justice in 1879 displays a very marked decrease of crime. The total number of offences reported was 11,292 which compares very favorably with 16,128 the number for 1878: and again 20,679 persons were brought to trial in place of 30,132; it is further still more satisfactory to learn that whereas the general decrease in the number of offences reported is in a measure counterbalanced by an increase in the number of class II; offences against the person (4,605 against 4,386) and of class IV; miscellaneous (2,007 against 1,826), the real decrease was in serious offences and offences against property.

2. In fact there was leisure to take notice of minor assaults and petty cases of hurt which in the dark days of two years before the complainants would have passed over having much more serious work on hand, and Government servants had time to search out and prosecute petty offences against Police and Municipal rules, but such offences as murder, dacoity, robbery, cattle-theft and house-breaking shew a most gratifying diminution.

3. This result is but a continuation of the movement which had very strongly set in in 1878, and which was commented on in the Review of that year's report; so that the list of offences reported for 1879, as compared with that of 1877 in para 7 of the Officiating Judicial Commissioner's Report, displays a reduction which appears almost marvellous. And yet the favorable comparison of the past year's statistics with those of that terribly trying year 1877, must not lead to shutting the eyes to the fact that, great as is the improvement in the matter of dacoity, a return of 81 offences reported under that head is too large for a small state like Mysore and is still above what used to be the number a few years ago.

4. The number of Magisterial Courts has been diminished by 19. Munsiff Magistrates have to a great extent supplanted the old machinery of Taluk Magistracy and powers have been withdrawn from *Peshkars* and *Sheristadars*. It was feared that the low percentage of convictions was greatly due to the hasty entertainment of cases, which, had they been probed, would at once have been seen to be unsustainable, and it was hoped that the change adverted to would remedy this; but the change has not yet had time to affect the results, and the percentage of persons convicted to persons tried is still lower than before, and only reaches 48·8.

5. In two somewhat important particulars there is good improvement; the average duration of cases has been one day less than in 1878, and is only 4·7 days, and the percentage of fines recovered to fines inflicted has risen from 46 to 74.

6. The work of the Appellate Courts was light; 358 persons appealed to Magistrates' Courts, 187 to Sessions Judges, and 175 to the Court of the Judicial Commissioner. The necessity of the appeals to the two former classes of Courts is shewn by the fact that 34 per cent of the appellants were successful in obtaining a reversal of sentence; but as was remarked in last year's report appeals against the severer sentences of Sessions Judges and Magistrates exercising enhanced powers under Section 36 of the Code of Criminal Procedure seem to be preferred whether there is reason to hope for success or ground to be dissatisfied with the finding or not. They were successful in only 10 per cent of the cases. No sentences were enhanced on appeal by the Judicial Commissioner.

Letter No. 241, dated 15th June 1880, from the Officiating District and Sessions Judge, Ashlagram Division, requesting sanction to the mileage bill of the establishment which accompanied him to Hassan on Sessions duty in May last.

No. 2084—F. 158, DATED BANGALORE, 24TH JUNE 1880.

ORDER.—The Chief Commissioner's Proceedings in the Revenue Department, No. 4572-80—Mis. 426, dated 5th December 1879, on the authority of which the Deputy Accountant General returned the above bill unpassed, apply only to District officials and have no force in regard to the establishments accompanying Sessions Judges who must travel expeditiously or waste a great deal of valuable time.

,, Deputy Accountant General, (with mileage bill received with Colonel Hill's letter.)
,, Judicial Commissioner for information.

No. 2089—F. 159, DATED BANGALORE, 24TH JUNE 1880.

ORDER.—There appears to be some diversity of practice and misunderstanding of orders in the matter of reporting the transfer of charge of a District Treasury.

2. The Civil Account Code, Chapter 3, Section 7, requires statements of the cash balances of treasuries to be sent to the Accountant General on the occasion of transfer of charge from and to an officer having independent charge.

3. The Chief Commissioner's Circular No. 116—33, dated 10th May 1864, requires a report to the Secretary when an officer assumes charge of a District, to the effect that he has counted the treasure, and the Circular of the Auditor and Accountant of Mysore (now Deputy Accountant General) No. 192, dated 21st May 1864, prescribes a *form* of report to be furnished to him on transfer of charge of a Treasury, in accordance with his Circular No. 8, dated 2nd April 1863.

4. It seems therefore that these standing orders nowhere require the submission of the Cash Balance Statement, on transfer of charge of a Treasury, to the Secretary, but such statement is to be sent to the Deputy Accountant General on the occasion of every transfer, whether of the Treasury only from one Treasury Assistant Commissioner to another, or of the District and Treasury from one District Officer to another; and that in the case of the latter only (the transfer of the District and Treasury), a report of the treasure having been counted is to be sent to the Secretary.

5. The Cash Balance Statement made out in the prescribed form is the most convenient method of reporting that the treasure has been counted, and therefore, for the future, the following procedure should be adopted.

6. In every case of the transfer of a District Treasury from one officer to another, the Cash Balance Statement will be sent direct to the Deputy Accountant General; but on transfer of a District and Treasury from one District Officer to another, it should be stated in the usual report of assumption of charge sent to the Secretary, General Department, that the Cash Balance Statement has been forwarded to the Deputy Accountant General.

Proceedings of the Chief Commissioner of Mysore in the General Department, (Financial),—dated 28th June 1880.

READ—

The Annual Report on the working of the Money Order Department in Mysore for 1879—80.

No. 2161—F. 167, DATED BANGALORE, 28TH JUNE 1880.

REVIEW BY THE CHIEF COMMISSIONER.—On the 1st of January 1880 the Money Order Department in British India was transferred to the Post Office. This has adversely affected the operations of the year in Mysore, because it was not possible to use the local Anche in the same way and at first no means of reciprocity could be arranged. All dealings in money orders between the Mysore Districts where no Post Office existed and British India ceased, and in those places where there is a Post Office the work was transferred so far as concerns orders to and from places in British India to the Post Office.

2. Arrangements were subsequently made, but not until the close of the year, whereby money orders could be drawn by District Head-quarter Treasuries on Imperial Post Offices, but the same facilities for transacting this business at all Taluk Cutcherries do not exist, and so far the change as it affects the interior of the Mysore Province has caused inconvenience that apparently will be permanent, as well as that which has now been got over.

3. The same machinery as before exists for the payment of Mysore Circle orders, but as in all places within Mysore where there are Post Offices the public can choose between using the Treasury or the Post Office for local orders and the Post Office procedure is more convenient to the drawer, it is probable that the number of orders drawn and paid on account of local remittances will decrease considerably. Indeed the falling off was strongly marked in the Bangalore, Kolar, Mysore and Hassan Offices during the months January to March.

4. The income accruing to the Department may therefore be expected nearly to disappear as regards dealings with British India Circles and to drop considerably as regards local remittances, but the only expenditure on establishment, now that the Bangalore Office Clerk has been taken away, is in the Head Office of Inspection and the loss of the small income is a trifling matter compared with public convenience, if only that be secured by the transfer.

5. Naturally the orders issued by Mysore Offices on India Circles and the India Circle orders paid by Mysore decreased both in number and value ; the issues numbered 3,138 and were valued at Rs. 94,321 against 4,061 valued at Rs. 1,25,942, the transactions of the year having ceased with the 31st December 1879. Orders paid by Mysore numbered 2,934 valued at Rs. 76,490 against 3,880 valued at Rs. 1,06,702.

6. From the remarks made above a similar falling off, though not to so great an extent, might be looked for in the returns of local orders ; and it would have occurred but for a very marked activity in the last three months in those offices where no Post Office exists. This quite counterbalanced the falling off elsewhere; the issues consequently numbered 3,674 against 3,276 though their value Rs. 1,08,569 was a little under Rs. 1,09,529 that of 1878—79. Orders paid numbered 3,687 valued at Rs. 1,07,379 against 3,279 valued at Rs. 1,09,247.

7. The Department was worked at a small surplus of Rs. 888. Expenditure on establishment having been reduced by the abolition of the Saklespur agency and withdrawal of the Bangalore Clerk, Mr. Gordon desires to be informed whether the annual contribution for pension may not now be reduced lower than Rs. 285 which appears to be more than 25 per cent of the cost of the fixed establishment.

No. 1846—G. 511, DATED 12TH JUNE 1880.

REVIEW BY THE CHIEF COMMISSIONER.—With the above letter was received the Report on the working of the Indian Companies' Act X of 1866, during the financial year ending 31st March 1880.

2. Two new companies have been formed and registered, but four banks went into liquidation during the year. There are thus 84 companies on the register, but 20 have discontinued business.

Sixteen companies made default in duly submitting the prescribed periodical returns and in those cases where the default was sufficiently protracted to bring the Directors within the operation of the penal clauses of the Act, the Registrar has instituted criminal proceedings. It will be seen therefore that there is still much irregularity in the working of some of these companies.

3. The Registrar submits with his Report a corrected list of joint-stock companies registered in Mysore, up to the end of March 1880, which will be forwarded to the Government of India with this Report.

Proceedings of the Chief Commissioner of Mysore in the General Department, (General),—dated 22nd June 1880.

From the Secretary to the Chief Commissioner of Mysore, General Department, To the Secretary to the Government of India, Foreign Department, Simla, No. 956—G. 273, dated Ootacamund, 5th May 1880.

I am directed by the Chief Commissioner to forward copy of his Proceedings in the General Department No. 798—G. 246 of this day's date and to request the sanction of Government to the entertainment of the following small establishment for the Bangalore Lying-in-Hospital, *viz*:—

1	Nurse	Rs.	10
1	Water woman	,,	6
1	Female sweeper	,,	5
1	Do cook	,,	6
1	Peon	,,	7

at a total monthly cost of Rs. 34, and to the provision of Rs. 35 per mensem for diet and contingencies, making a total monthly provision of Rs. 69.

2. The Deputy Accountant General has reported that the proposed outlay will be met from general savings, and the Chief Commissioner is confident that His Excellency the Governor General in Council will agree with him in considering that the scale proposed is as modest as it is possible to commence with, and that the disinterested conduct of Dr. Henderson gives the institution every chance of success, and makes the occasion opportune for its opening.

From the Assistant Secretary to the Government of India, Foreign Department, To the Chief Commissioner of Mysore, General, No. 1169 G. G., dated Simla, the 11th June 1880.

In reply to your Secretary's letter No. 956—G. 273, dated 5th May 1880, I am directed to say that the Governor General in Council sanctions the entertainment of the establishment therein specified for the Bangalore Lying-in-Hospital at a cost of Rs. 34 per mensem, and the expenditure of Rs. 35 per mensem for diet and contingencies.

No. 1996—G. 550, DATED BANGALORE, 22ND JUNE 1880.

ORDERED, that the above be communicated to the Surgeon, Mysore Commission, Surgeon-Major J. Henderson, M. D., and the Deputy Accountant General, for information and guidance, in continuation of Chief Commissioner's Proceedings No. 798—G. 246, dated 5th May 1880.

Letter No. 250—21 dated 31st May 1880, from the Anche Bakshi submitting the Annual Report on the operations of the Anche Department for the year 1879—80.

No. 2001—G. 551, DATED BANGALORE, 22ND JUNE 1880.

ORDER THEREON.—The above report contains the history of the Anche during a year which has witnessed a good deal of change. Failing health, long service, the necessity of remodelling the department; these all contributed to necessitate the retirement of Mr. Amrutalingam Modaliar, the late Anche Bakshi. He survived the end of his official labors by but a very short time. Mr. Murry Gungiah who succeeded to the office now submits his first report, and there is evidence in it that he has capacity to grasp the weak points of the local postal administration, united with ability and energy in remedying them.

2. Early in the year an economy in expenditure on establishments was effected by doing away with the Anche Offices attached to the Division and District Office establishments, by recasting the pay of the Bakshi and abolishing one or two places in the Head-quarter offices. Over Rs. 8,000 have been saved by these measures. The eleven offices thus abolished, with the closing of an experimental receiving-house at Doddspet, reduced the total number of offices, open throughout the Province, by twelve, but an equal number of experimental receiving-houses have been opened at various places on existing lines so that the year closes with 156 offices, just the same number as in 1878—79.

3. These experimental receiving-houses mark a new departure. An attempt is being made for the first time to extend the postal system so as to take in many small places, at a cost so low that the little revenue likely to accrue with still be sufficient. To this end Hobli School-masters have been appointed Anche Mutsaddis and given a small addition of rupees 3 per mensem for doing the extra work. Where the private correspondence is enough to pay for this small outlay the offices will be retained, and there seems little doubt but that a way has been opened for extending the post very considerably and with no risk of losing money by failure. Should an office produce absolutely nothing for six months the insuitability of the locality will have been conclusively proved for the small cost 18 rupees. There has not been time yet to judge by results the success of the trial.

4. Other changes introduced which should be noticed are the introduction of post cards and reduction of bhángi rates. When first post cards were introduced into the Imperial Post it was necessary to interdict their use in Mysore, for a post card dropped into a Post Office in a town in the interior and addressed to some place that could only be served through the Anche was cause of some embarrassment. A letter in the same situation could be carried by the Anche and charged for on delivery, but the addressee would take a post card in his hand to see if it were really to himself; read it carefully, and then return it to the delivery-peon and refuse to receive it. The difficulty has however been removed, and post cards can now be used in Mysore, as in British India, wherever there is an Imperial Post Office, owing to an arrangement made between the Post Office and the Anche.

5. The change in bhángi rates only came into force on the 1st April, so that it has not affected the past year at all, by it bhángis posted for carriage in the interior of Mysore are charged with rates just equal to one half of Imperial rates; the same charge is levied on bhángis, intended for or received from outside the Province, for forwarding them to or from the frontier Post Office; but light parcels of one pound and under are now forwarded free of Anche charge like letters.

6. The closing of the Banawasi experimental line diminished the length of line served by 12 miles; in the number of offices open, and the mileage run there was, therefore, hardly any change; but the reduction of establishment and other economies resulted in reducing the expenditure which had been in 1878—79 Rs. 1,64,567 to Rs. 1,56,103 in the year 1879—80.

Proceedings of the Chief Commissioner of Mysore in the General Department, (General),—dated 22nd June 1880.

7. The number of paid covers carried by the Anche slightly increased having been 1,154,257 instead of 1,142,465, but the actual income from all sources, which was Rs. 49,823, shews a slight decrease from Rs. 50,198 of the previous year; and this is the more remarkable that postage on letters has been less though the number of paid letters carried was more. The net cost of the postal service during the year is thus Rs. 1,06,280 being Rs. 8,000 less than in the year before a reduction effected by economizing the expenditure, and it is hoped that increased postal facilities may supplement this by bringing about an addition to the income.

8. It is curious to observe that though the postage on private correspondence has fallen off, and is now lower than it has been in any year since 1874—75, the number of covers interchanged with the Imperial Post has very considerably increased. The Bakshi does not explain the reason of this; perhaps it is due to the substitution of Imperial for Anche Post in Coorg.

9. Official letters and packets have again decreased in number. Nothing is charged for carrying official covers and a decrease in their number represents so much less work to be done by the Department. The total number carried was 1,194,196 and at Imperial postal official rates they would represent an income of Rs. 1,17,295. Appendix XVII of the Report from which these figures are taken also shews that a nominal charge on covers carried to and from the Imperial Post, the whole revenue on which goes to the Post Office, represents Rs. 10,713 worth of work done, and if for this and for official correspondence actual receipts had been taken the departmental surplus would have been Rs. 21,730.
